FontSafeis a plug-in for Adobe Illustrator that will create and update an internal Zip archive of all fonts used in a document, and store them within the document file. No Illustrator document need ever be without the fonts used, no matter where you send them, automatically.

_____

FontSafe 23 requires Adobe Illustrator version CC 2019 - 2023.

To install the plugin, just drop it into Adobe Illustrator's "Plug-ins" folder. It doesn't matter if you put it in a subfolder you create (just to keep things tidy) or at the top level of the Plug-ins folder.

The correct path to the main plugins folder under **Windows (64-bit)** is:
Windows (C:)\Program Files\Adobe\Adobe Illustrator[version]\Plug-ins

The **Windows 32-bit** path just adds the "(x86)" like this:
Windows (C:)\Program Files (x86)\Adobe\Adobe Illustrator [version]\Plug-ins

On a **Mac**, the path to the plugin folder is:
/Applications/Adobe Illustrator [version]/Plug-ins
